

# All Seasons Veterinary Care Monthly Newsletter

# July

## Shop Local & Convenient!

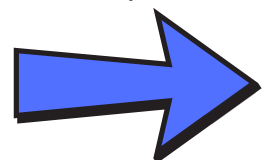

When it comes to your pet's medications and prescription diets, you shouldn't have to choose between convenience and supporting your local veterinary clinic, **you can have both!**

Many pet owners assume ordering from large online retailers is easier or less expensive, but **our Online Pharmacy offers the same convenience** while helping support the local clinic that cares for your pets.

Our online pharmacy offers competitive, price-matched pricing on many **flea, tick, and heartworm preventatives**, as well as **prescription veterinary diets**, including autoship discounts comparable to those offered by many national online pharmacies. That means you can **enjoy the convenience of home delivery without sacrificing quality, service, or your budget.**

Even better: **we'll do the setup for you!** If you'd like to order online, simply let us know what products you need. We can **create your online pharmacy account, add your pet's prescriptions directly to your shopping cart, and approve your prescription ahead of time.** All you have to do is log in, review your order, and check out. Want your pet's medications delivered automatically? **Autoship is available too,** making it easy to stay on schedule without having to remember monthly refills.

**But Wait, There's More!**

One of the biggest advantages of ordering through our online pharmacy is **peace of mind**. Our pharmacy is supplied through a trusted veterinary distributor that guarantees **every product is authentic, properly stored, and handled according to the same strict standards we follow here in our clinic**. You can feel confident knowing your pet is receiving exactly the medication your veterinarian prescribed.

For prescription veterinary diets, we also offer **convenient home delivery options** through **Hill's to Home** and **Purina ProPlan Vet Direct**, with competitive pricing and the convenience of shipping directly to your door.

Every purchase made through our online pharmacy **directly supports our locally owned practice**. It helps us continue investing in our staff, equipment, and the high-quality care we provide right here in Polk City. When you shop through All Seasons Veterinary Care, you're not only getting trusted products and personalized service, **you're helping ensure we're here to care for your pets for years to come**.

If you'd like to get started, just give us a call. **We'd be happy to set everything up for you!** Here's a QR code for our Online Store, Hill's to Home, and Purina ProPlan Vet

Direct!

**MyVetStore Online**

Hill's To Home

**Purina ProPlan Vet Direct**

If you prefer to use another online pharmacy, we can provide you with a written prescription. Simply request one during your appointment or contact us afterwards, and we'll have it ready for pickup within 48 hours. Please note that we do not approve prescription requests sent directly from third-party online pharmacies by phone, fax, or electronic request. This policy helps reduce fraudulent requests, minimizes delays caused by spam, and ensures we maintain the highest level of safety and accuracy for your pet's prescriptions. It also allows us to continue focusing on the pets currently in the clinic and keep the phone lines clear for the medical needs of our patients, we only have one receptionist, after all!

If you choose to use a third-party retailer for prescription food diets, a \$10 prescription writing fee applies to cover the time our medical team spends reviewing your pet's records and preparing the prescription as they are 100% price-matched (and often times even less expensive) through us and our sources!

# Staying Safe in the Heat!

From hot pavement to heatstroke risks, warmer weather can become dangerous quickly especially for pets who are outside, active, brachycephalic (flat-faced), very young, elderly, or overweight.

A few simple precautions can make a huge difference:

- 💧 **Always provide fresh water**
- 🌳 **Make sure pets have access to shade**
- 🚗 **Never leave pets in parked cars**
- 🐾 **Avoid hot pavement during walks**
- 🌅 **Plan outdoor time for cooler mornings or evenings**

Knowing the signs of heatstroke can save lives. If your pet is excessively panting, drooling, vomiting, struggling to breathe, or seems weak/disoriented, seek veterinary care immediately.

## National Kitten Day!

In honor of National Kitten Day on July 10th, we'd like to introduce one of our favorite feline team members: Daphne!

Daphne's story began just across the road from All Seasons Veterinary Care, where she was found stranded in a tree as a tiny kitten. After being rescued, it didn't take long for her big personality to shine. Full of confidence and just the right amount of sass, she quickly won over our hearts.

She was named after Daphne from Greek mythology! She was a woodland nymph who transformed herself into a tree to escape Apollo.

Since Daphne was found in a tree, we thought the name fit her perfectly!

When she's not greeting clients at the clinic, "talking" up a storm, or chasing her favorite toys, Daphne spends her time at home lovingly harassing her dog brother, Jack, or being doted on by her adopted cat mom, Pam.

From a tiny kitten in a tree to a beloved member of our ASVC family, Daphne reminds us that sometimes the best stories begin in the most unexpected places. Happy National Kitten Day, Daphne!
